

European Heart for Children

is a humanitarian non-profit organisation ("Fonds de dotation") registered in France.
Registration number 01267 in the official associations journal No 0020 (15/5/2010)

Prof. M. Taborsky
President
The Czech Society of Cardiology

Ferrara, 15th September 2016

Dear Prof. Taborsky,

The European Heart for Children foundation would like to convey its warmest thanks to you for the participation in our annual charity dinner on the occasion of the annual meeting of the European Society of Cardiology.

This year, this event raised an income of 44 003,00 Euros. The funds raised will go towards the development of a paediatric unit in Morocco, at the Hopital IBN Rochd, Casablanca and to other activities in line with the scope of European Heart for Children.

Thanks to your generosity children with congenital heart diseases of Morocco and the near Maghreb will (hopefully) have a better future.

We will continue to dedicate our energy to this cause in order to save more lives of children affected by congenital heart diseases and provide them the quality of life which they deserve.

European Heart for Children is extremely grateful for your support and looks forward to seeing you at the Fundraising dinner in Barcelona next year. Your generosity is of utmost importance for the continuity of our actions.

Best regards
