

**Aalst-Eindhoven-Brno Course on Coronary Physiology**  
*„MiddleEuropean FFR Workshop 2011“*  
**Brno, Hotel Myslivna - January 20-21, 2011**  
University Hospital Brno - Bohunice, Czech republic  
in collaboration with the Cardiovascular Center Aalst OLV-Clinic, Belgium

Dear colleagues and friends,

on behalf of the course directors I would like to cordially invite you to the **international workshop** about the functional assessment of coronary lesions (FFRmyo).

Workshop will be held in the Brno city with live-cases transmitted from the cathlab of **Internal and Cardiological Dpt, University Hospital Brno**. We plan the workshop to be very interactive with enough time left for stimulating and friendly discussion.

During the workshop there will be also a Case-report session where might be able to present your own cases commented and discussed by the experts.

You are welcome to contact Mr Sedlacek for further information ([jiri.sedlacek@cardion.cz](mailto:jiri.sedlacek@cardion.cz)).

We look forward to welcome you to Brno.

Yours sincerely

**Petr Kala**

On behalf of **Bernard de Bruyne**
